Culture Waves Global is in India for the long-haul. We have made a commitment to the people living in Tribal Villages in Kambalapalem and Yeleswaram to provide physical, medical, and spiritual support. Below are some things that we are asking God for. If your church or association would like to take on one of these projects, please call us today.

- **To build a new medical clinic in the Tribal Village of Kambalapalem.** This will be part of an ongoing effort to improve basic medical services to the very poor in this village of more than 400-500. The cost of building a structure in the village will be approximately \$5,000.00 to \$7,000.00 USD. Construction can begin as soon as funds are available.

We envision the clinic being staffed by a MD and RN three days per month initially. It will also serve as our base of operation when we bring medical teams from America for mission trips.

- **Dig a new deep-bore fresh water well in a Tribal Village about 45 minutes away from Yeleswaram.** The cost is approximately \$1,500.00 USD to dig in this remote area.
- **Provide a new generator for the church/parsonage in Kambalapalem.** Rolling blackouts make any evening activities/ services very challenging throughout the year. The cost is approximately \$800.00 USD.
- **Provide ongoing food assistance for the orphanage in Kambalapalem.** This will consist of rice and seasonal fruits and vegetables. This will cost approximately \$2,400.00 USD per year.
- **Establish is college/trade school scholarship fund for orphans living in Kambalapalem.** We are currently exploring how this can be achieved, but believe it to be the only possible way to break the cycle of poverty that exists in the tribal villages.
- **Begin a Pastor's Training Institute for pastors serving in Tribal Villages.** Seminary trained pastors from America will come and lead workshops pertaining to basic Bible preaching & teaching. This will be coordinated with our March Pastor's Conference. The cost of this event will be approximately \$2,000.00 USD annually.
- **Purchase supplies for our September, 2015 Medical Mission Trip.** Funds raised for this trip cover the cost of purchasing prescription medication, over the counter medication & vitamins, rubber gloves, surgical masks, hand sanitizer, etc. This will range between \$3,500.00 to \$5,000.00 per trip.
- **Begin a Widow Care ministry in Yeleswaram.** The pastor recently made us aware of a small group of 12-15 elderly widows who come to him weekly for food and basic necessities. As the church is able, these women (and one elderly man) are given a one week supply of rice. This provision allows them to survive without taking to the streets and begging from passer-byes. Many of them are demonstrating signs of malnourishment. Culture Waves Global is committed to providing ample food for these widows through the local church ministry. We will also provide clothing and necessities like warm blankets. The cost of this program will only amount to approximately \$800.00 USD per year.
- **Expansion of the church structure.** The church in Kambalajpalam is currently reach several hundred people on a weekly basis (in addition to his four other sites), but is struggling to fit everyone in. They currently have overflow outside of the church, but that is not always practical. We can help them expand their church building to accommodate the people for \$2,000.00 USD.
